

In the 1800s, half of all surgical patients died from infection. The prospect of surgery was frightening! The ~~dirty~~ conditions in the hospitals led to all this infection and death. Even the operating rooms were very dirty places. In those days, surgeons did not wear masks or gloves. Surgeons rarely washed their ~~dirty~~ hands. Their ~~dirty~~ clothes were often covered in blood.

1. Start: Joseph Lister, a surgeon in the 1800s, was instrumental in changing the hospital procedures.
- Add: Your own word or words that describe a surgeon who knows a lot.
- Add: Your own word or words that describe hospital procedures that were very bad.
